

# **PlenaFelt** Ocean

PlenaFelt Ocean is a bituminous vapour barrier membrane composed of two outer layers of polypropylene nonwoven fabric and a central reinforcement made of 100% post-consumer recycled polyester

The layers are bonded using a high-performance bituminous

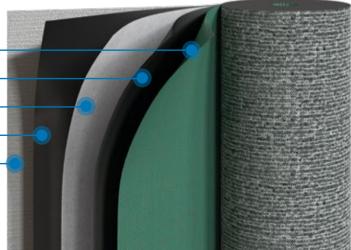

### **Features**

## **Application**

PlenaFelt Ocean is intended for use as a vapour barrier underlay on timber decking in discontinuous pitched roof assemblies. It can also be used in complex roof build-ups where high vapour control must be combined with excellent mechanical performance and to environmental agents.

### **Accessories**

accessory details p. 58-59

| Product |                      | Length | Width | Adhesive Type    |
|---------|----------------------|--------|-------|------------------|
|         | PLENAFLEX BUTYL TAPE | 35 m   | 20 mm | butyl rubber     |
|         | PLENA BUTYL TAPE     | 15 m   | 50 mm | butyl rubber     |
|         | PLENA BARRIER TAPE   | 25 m   | 60 mm | acrylic adhesive |
