Stetra Levellers is a wedge-based levelling system designed to ensure perfectly aligned tile installation and maintain uniform grout joints. Ideal for floor applications, it helps eliminate lippage between adjacent tiles, improving installation accuracy and the aesthetic quality of the finished surface. Manufactured from durable, easy-to-use materials, Stetra Levellers is particularly suitable for the installation of large-format tiles, enabling precise levelling, reduced installation time, and a professional finish.

Stetra Levellers Gypsum

Code	Joint width	Color	Tile Thickness	Units per box
SLG951820VE	2 mm	White	6-13 mm	2000 pcs.

Stetra Levellers Gypsum is a patented levelling system designed for the fast and precise installation of gypsum plasterboards. The integrated fixing tab enables quick attachment to the board, while the adjustment knob allows simple and accurate levelling in both horizontal and vertical applications. Designed to simplify installation and improve surface alignment, Stetra Levellers Gypsum helps reduce installation time while ensuring professional results and perfectly level surfaces.

Stetra Screw Spacers Levellers

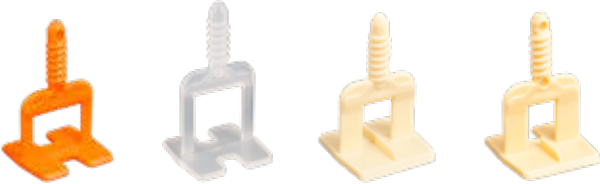

Code	Joint width	Color	Tile Thickness	Units per box
SSL1TR	1 mm	Ivory	13-20 mm	2000 pcs.

Stetra Screw Spacers Levellers is an adjustable levelling system featuring an integrated fixing tab and a threaded adjustment ring. By rotating the ring, any unevenness can be easily corrected, ensuring precise alignment in both horizontal and vertical applications. Easy to install and adjust, it helps reduce installation time while improving the quality and accuracy of the finished result.
